1. DCO = Designated Countries of Origin – First list announced on December 14, 2012 – Only people making claims AFTER December 15, 2012 from these countries are affected.

2. Diseases on Public Health Agency of Canada website or public safety concern deemed by an MD <http://www.phac-aspc.gc.ca/bid-bmi/dsd-dsm/duns-eng.php>

3. This includes drugs, emergency dental care, basic vision care, prosthetics, assistive devices, psychotherapy, PT, OT, audiology, home care, long term care, midwifery.

In Ontario midwives can still see patients without OHIP or IFH.

4. Not including elective surgery, rehab care or long term care. Chemotherapy is not covered. Unclear whether other in-hospital medicines are.

Note: Victims of Human Trafficking with a Temporary Resident Permit and Privately Sponsored Refugees on Resettlement Assistance get Expanded Health Care Coverage

HEALTH CARE PROVIDERS: Please use this form to document encounters with people adversely affected by refugee health cuts: <http://www.surveymonkey.com/s/66KPGVS>

*This document has been created by Ritika Goel, MD with the help of other clinicians and lawyers in Canada based on interpretation of information available.
